Whitman County invites community members to participate in the Comprehensive Plan update by joining the first virtual public meeting on March 10th, 2021 at 7pm.

What is a Comprehensive Plan?

It is a document that helps guide the County in planning for the next 20 years. It focuses on land use, transportation, capital investments, and other topics.

How is it Created?

A comprehensive plan is created through community involvement. Whitman County has created an online survey, and there will be several opportunities over the summer to engage with the project. See the project schedule below and be a part of shaping Whitman County's future!
